Fundamentals of Nursing

The Art and Science of Person-Centered Care

Carol R. Taylor, Pamela B Lynn, Jennifer L Bartlett

10th Edition

Table of Contents

Unit I Foundations of Nursing Practice

- Chapter 1 Introduction to Nursing and Professional Formation
- Chapter 2 Theory, Research, and Evidence-Based Practice
- Chapter 3 Health, Wellness, and Health Disparities
- Chapter 4 Health of the Individual, Family, Community, and Environment
- Chapter 5 Culturally Respectful Care
- Chapter 6 Values, Ethics, and Advocacy
- Chapter 7 Legal Dimensions of Nursing Practice
- Chapter 8 Communication
- Chapter 9 Teaching and Counseling
- Chapter 10 Leadership, Managing, and Delegating

Unit II Health Care Delivery

- Chapter 11 Health Care Delivery System
- Chapter 12 Interprofessional Collaborative Practice and Care Coordination Across Settings

Unit III Processes of Person-Centered Care

- Chapter 13 Blended Competencies, Clinical Reasoning, and Processes of Person-Centered Care
- Chapter 14 Clinical Judgment
- Chapter 15 Assessing
- Chapter 16 Diagnosing
- Chapter 17 Outcome Identification and Planning
- Chapter 18 Implementing
- Chapter 19 Evaluating
- Chapter 20 Documenting and Reporting
- Chapter 21 Informatics and Health Care Technologies

Unit IV Developmentally Appropriate Care

- Chapter 22 Developmental Concepts
- Chapter 23 Conception Through Young Adulthood
- Chapter 24 Middle and Older Adulthood

Unit V Actions Basic to Nursing Care

- Chapter 25 Asepsis and Infection Control
- Chapter 26 Vital Signs
- Chapter 27 Health Assessment
- Chapter 28 Safety, Security, and Emergency Preparedness
- Chapter 29 Complementary and Alternative Therapies
- Chapter 30 Medications
- Chapter 31 Perioperative Nursing

Unit VI Promoting Healthy Physiologic Responses

- Chapter 32 Hygiene
- Chapter 33 Skin Integrity and Wound Care
- Chapter 34 Activity
- Chapter 35 Rest and Sleep
- Chapter 36 Comfort
- Chapter 37 Nutrition
- Chapter 38 Urinary Elimination
- Chapter 39 Bowel Elimination
- Chapter 40 Oxygenation and Perfusion
- Chapter 41 Fluid, Electrolyte, and Acid–Base Balance

Unit VII Promoting Healthy Psychosocial Responses

- Chapter 42 Self-Concept
- Chapter 43 Stress and Adaptation
- Chapter 44 Loss, Grief, and Dying
- Chapter 45 Sensory Functioning
- Chapter 46 Sexuality
- Chapter 47 Spirituality

Chapter 01: Introduction to Nursing and Professional Formation

1. Which of the following statements accurately describe an element of nursing?
Select all that apply.
 - A) The skills involved in nursing are primarily technical in nature.
 - B) The primary focus of nursing is to assist individuals to recover from illness.
 - C) The science of nursing is the knowledge base for the care that is given.
 - D) The art of nursing is the collection of knowledge through research.

- D) to enable nurses to have a voice in healthcare policy

25. After graduation from an accredited program in nursing and successfully passing the NCLEX, what gives the nurse a legal right to practice?

- A) enrolling in an advanced degree program
- B) filing NCLEX results in the county of residence
- C) being licensed by the State Board of Nursing

- D) having a signed letter confirming graduation
26. A nurse has been tried and found guilty of the felony crime of forgery. How might this affect the nurses license to practice nursing?
- A) It will have no effect on the ability to practice nursing.
- B) The nurse can practice nursing at a less-skilled level.
- C) The license may be revoked or suspended.
- D) The license will permanently carry the felony conviction.
27. Nurses use the nursing process to focus care on human responses to what?
- A) interactions with the environment
- B) physical effects of disease
- C) outcomes of medical or surgical treatment
- D) actual or potential health problems
28. Which age group in the population is expanding most rapidly, resulting in changes in the delivery of healthcare?
- A) older adults

B) young adults

C) school-aged children

D) newborns

29. Which of the following is a current trend affecting nursing education and practice?

A) over abundance of graduating nurses

B) office-based care delivery systems

C) increase in length of hospital stay

D) increase in chronic health conditions

Answer Key

1. C, E, F

2. B

3. A

4. D

5. C

6. B

7. A

8. B

9. B

10. B

11. C,E

12. B

13. A

14. C

15. D

16. A

17. B

18. B

19. D

20. B

21. D

22. C

23. A

24. B

25. C

26. C

27. D

28. A

29. D
