

TEST BANK

Rosdahl's Textbook of Basic Nursing

Caroline Rosdahl

12th Edition

Table of Contents

Unit 1 The Nature of Nursing

Chapter 1. The Origins of Nursing

Chapter 2. Beginning Your Nursing Career

Chapter 3. The Healthcare Delivery System

Chapter 4. Legal and Ethical Aspects of Nursing

Unit 2 Personal and Environmental Health

Chapter 5. Basic Human Needs

Chapter 6. Health and Wellness

Chapter 7. Community Health

Chapter 8. Transcultural Healthcare

Unit 3 Development Throughout the Life Cycle

Chapter 9. The Family

Chapter 10. Infancy and Childhood

Chapter 11. Adolescence

Chapter 12. Early and Middle Adulthood

Chapter 13. Older Adulthood and Aging

Chapter 14. Death and Dying

Unit 4 Structure and Function

Chapter 15. Organization of the Human Body

Chapter 16. The Integumentary System

Chapter 17. Fluid and Electrolyte Balance

Chapter 18. The Musculoskeletal System

Chapter 19. The Nervous System

Chapter 20. The Endocrine System

Chapter 21. The Sensory System

Chapter 22. The Cardiovascular System

Chapter 23. The Hematologic and Lymphatic Systems

Chapter 24. The Immune System

Chapter 25. The Respiratory System

Chapter 26. The Digestive System

Chapter 27. The Urinary System

Chapter 28. The Male Reproductive System

Chapter 29. The Female Reproductive System

Unit 5 Nutrition and Diet Therapy

Chapter 30. Basic Nutrition

Chapter 31. Transcultural and Social Aspects of Nutrition

Chapter 32. Diet Therapy and Special Diets

Part B Nursing Care Skills

Unit 6 The Nursing Process

Chapter 33. Introduction to the Nursing Process

Chapter 34. Nursing Assessment

Chapter 35. Nursing Diagnosis and Planning

Chapter 36. Implementing and Evaluating Care

Chapter 37. Documenting and Reporting

Unit 7 Safety in the Healthcare Facility

Chapter 38. The Healthcare Facility Environment

Chapter 39. Emergency Preparedness

Chapter 40. Introduction to Microbiology

Chapter 41. Medical Asepsis

Chapter 42. Infection Control

Chapter 43. Emergency Care and First Aid

Unit 8 Client Care

Chapter 44. Therapeutic Communication Skills

Chapter 45. Admission, Transfer, and Discharge

Chapter 46. Vital Signs

Chapter 47. Data Collection in Client Care

Chapter 48. Body Mechanics and Positioning

Chapter 49. Beds and Bed Making

Chapter 50. Personal Hygiene

Chapter 51. Elimination

Chapter 52. Specimen Collection

Chapter 53. Bandages and Binders

Chapter 54. Heat and Cold Applications

Chapter 55. Client Comfort and Pain Management
Chapter 56. Preoperative and Postoperative Care
Chapter 57. Surgical Asepsis
Chapter 58. Wound Care
Chapter 59. End-of-Life Care
Unit 9 Pharmacology and Administration of Medications
Chapter 60. Review of Mathematics
Chapter 61. Introduction to Pharmacology
Chapter 62. Classification of Medications
Chapter 63. Administration of Medications
Chapter 64. Administration of Intravenous Medications
Part C Nursing Throughout the Life Cycle
Unit 10 Maternal and Newborn Nursing
Chapter 65. Normal Pregnancy
Chapter 66. Normal Labor, Delivery, and Postpartum Care
Chapter 67. Care of the Normal Newborn
Chapter 68. High-Risk Pregnancy and Childbirth
Chapter 69. The High-Risk Newborn
Chapter 70. Sexuality, Fertility, and Sexually Transmitted Diseases
Unit 11 Pediatric Nursing
Chapter 71. Fundamentals of Pediatric Nursing
Chapter 72. Care of the Infant, Toddler, or Preschooler
Chapter 73. Care of the School-Age Child or Adolescent
Chapter 74. The Child or Adolescent With Special Needs
Unit 12 Adult Care Nursing
Chapter 75. Skin Disorders
Chapter 76. Disorders in Fluid and Electrolyte Balance
Chapter 77. Musculoskeletal Disorders
Chapter 78. Nervous System Disorders
Chapter 79. Endocrine Disorders
Chapter 80. Sensory System Disorders
Chapter 81. Cardiovascular Disorders
Chapter 82. Blood and Lymph Disorders
Chapter 83. Cancer
Chapter 84. Allergic, Immune, and Autoimmune Disorders
Chapter 85. HIV and AIDS
Chapter 86. Respiratory Disorders
Chapter 87. Oxygen Therapy and Respiratory Care
Chapter 88. Digestive Disorders
Chapter 89. Urinary Disorders
Chapter 90. Male Reproductive Disorders
Chapter 91. Female Reproductive Disorders
Unit 13 Gerontological Nursing
Chapter 92. Gerontology: The Aging Adult
Chapter 93. Dementias and Related Disorders
Unit 14 Mental Health Nursing
Chapter 94. Psychiatric Nursing
Chapter 95. Substance Abuse
Unit 15 Nursing in a Variety of Settings
Chapter 96. Extended Care
Chapter 97. Rehabilitation Nursing
Chapter 98. Ambulatory Nursing
Chapter 99. Home Care Nursing
Chapter 100. Hospice Nursing
Part D Your Career
Unit 16 The Transition to Practicing Nurse
Chapter 101. From Student to Graduate Nurse
Chapter 102. Career Opportunities and Job-Seeking Skills
Chapter 103. Advancement and Leadership in Nursing

1. Which of Florence Nightingale's nursing principles is still practiced today?
 - A) The nurse's role is defined by the physician's orders.
 - B) The nurse's primary role is to spend time caring for others.
 - C) The nurse is viewed as an independent healthcare provider
 - D) The nurse is tasked with the responsibility of keeping the environment clean.

2. What contribution did Roman Matron Phoebe make to the origins of nursing?
 - A) Established first gerontological facility
 - B) Was the first deaconess and visiting nurse
 - C) Established inns and hospitals for pilgrims
 - D) Was the namesake of the first free hospital in Rome in 390 AD

3. What contribution did Roman Matron Saint Marcella make to the origins of nursing?
 - A) First to teach nursing skills
 - B) Was the first deaconess and visiting nurse
 - C) Established inns and hospitals for pilgrims
 - D) Was the namesake of the first free hospital in Rome in 390 AD

4. In what time period were monastic orders established to care for the sick?
 - A) 500 BC
 - B) 460 BC
 - C) First century
 - D) Second century

5. Which nursing programs were established on the basis of the Nightingale plan? Select all that apply.
 - A) Kaiserswerth School for Nursing
 - B) Bellevue Hospital School of Nursing
 - C) Connecticut Training School in New Haven
 - D) Boston Training School at Massachusetts
 - E) St. Thomas Hospital in London

6. A beginning nursing student asks about the principles taught by the Nightingale Nursing School. What should the nurse's answer include? Select all that apply.
 - A) Cleanliness is vital to recovery.
 - B) Cure is better than prevention.
 - C) The nurse must work as a member of a team.
 - D) The nurse should be healthy in both mind and in body
 - E) The nurse must use discretion, but must follow the physician's orders.

7. A student nurse is interested in knowing some of the Nightingale School's innovation in the field of nursing. What should the nurse's response include?
 - A) Establishment of a nurses' residence
 - B) Records of school employment before graduation
 - C) Exit examinations and academic and personal requirements, including a character reference before working
 - D) Records of each student's progress that was later known as the "Henderson plan," a model for current nursing programs

8. A nursing student asks about the significance of the Nightingale lamp. What is the symbolism attached to this image?
 - A) Warmth of caring
 - B) Nursing education
 - C) Energy of the nurse to heal others
 - D) Commitment of the nurse to heal others

9. Which interventions did Nightingale insist upon, that immediately served to reduce the mortality rate during the Crimean War? Select all that apply.
 - A) Securing more funds and support
 - B) Establishing sanitary conditions
 - C) Providing quality nursing care
 - D) Increasing the available nurses
 - E) Procuring more medication

10. What contribution did Isabel Hampton Robb make to the development of nursing in the United States?
 - A) Founded the school of nursing at Johns Hopkins University
 - B) Moved nursing from menial work to an honored profession
 - C) Organized the school of nursing at Massachusetts General Hospital
 - D) Founded American public health nursing

11. What contribution did Lillian Wald make to the development of nursing in the United States?
 - A) Founded the American Red Cross
 - B) Founded American public health nursing
 - C) Superintendent of female nurses during the Civil War
 - D) Organized the school of nursing at Massachusetts General Hospital

12. What contribution did Mary Adelaide Nutting contribute to the development of nursing in the United States?
 - A) First nurse to be on a university staff
 - B) Founded American public health nursing
 - C) Founded the school of nursing at Johns Hopkins University
 - D) Organized the school of nursing at Massachusetts General Hospital

13. Which practical nursing school was established first?
 - A) Thompson Practical Nursing School in Brattleboro
 - B) Young Women's Christian Association (YMCA)
 - C) Household Nursing Association School of Attendant Nursing
 - D) American Red Cross

14. Which pioneer nursing school began as a result of Richard Bradley's determination that the local citizens needed nursing service?
 - A) Thompson Practical Nursing School in Brattleboro
 - B) Young Women's Christian Association (YWCA)
 - C) Household Nursing Association School of Attendant Nursing
 - D) American Red Cross

15. What types of programs would an individual interested in pursuing a degree in practical nursing commonly enroll for this type of training? Select all that apply.
 - A) Local university
 - B) A public college
 - C) Vocational school
 - D) A public high school
 - E) Community college

16. A nurse educator is discussing the role of nurses during World War II with a group of new nurses in an army hospital. A new nurse asks about the impact of World War II on nursing. What should the registered nurse's response include?
 - A) "World War II had equal rank assigned to male and female nurses."
 - B) "World War II reduced the role of nurses in healthcare centers."
 - C) "World War II started recruitment of men as well as women into nursing."
 - D) "World War II marked the first emergency training of nurses."

17. When were male nurses given ranking equal to female nurses in the armed forces?
- A) Civil War
 - B) World War I
 - C) World War II
 - D) Korean War
18. When considering the current trend of home care in the 21st century, what trends are expected to influence the nursing profession?
- A) Lower acuity in hospital and long-term care settings
 - B) Shift to community-based care
 - C) Lifestyle factors and shorter life expectancy
 - D) Nursing education emphasizes service to clinical sites over education
19. A newly graduated practical nurse asks the registered nurse (RN) about the impact of the women's movement on present-day nursing. What should the RN's response include?
- A) "It has no impact; nurses still provide only primary care."
 - B) "It encourages nurses to work in a more collaborative manner."
 - C) "It allows nurses to work without having to report to primary care providers."
 - D) "It encourages nurses to work independently."
20. Considering current trends that are expected to influence the nursing profession in the 21st century, which factors create a need for community-based nursing care? Select all that apply.
- A) Homeless, unemployed, or underemployed individuals
 - B) Many people have limited health insurance
 - C) Medical management of acute illness
 - D) New advanced technology
 - E) Extended life expectancy
21. A nurse is caring for a client with terminal cancer at the client's home. Why should the nurse put greater emphasis on teaching with the family members taking care of the client?
- A) Family members may have to manage the patient-controlled analgesia pump to manage the client's pain.
 - B) Family members are expected to provide primary healthcare.
 - C) Family members are required to understand the advanced levels of nursing care.
 - D) Hospital stays may need to be decreased in both frequency and length.

22. There are current trends that are expected to influence the nursing profession in the 21st century. Which among the current trends have been the most influential for the nursing profession? Select all that apply.
- A) Autonomy
 - B) Changes in nursing education
 - C) Technology
 - D) Lower acuity among hospital clients
 - E) Increased acuity among long-term care clients
23. Nursing insignia, uniforms, and the nursing school pin have importance in the field of nursing. Which are religious symbols represented in nursing? Select all that apply.
- A) An open Bible
 - B) Star of David
 - C) Maltese Cross
 - D) A Christian Cross
 - E) The Nightingale lamp
24. A licensed nurse has been asked to address a group of newly recruited nurses. What should the licensed nurse inform them about the nursing uniform?
- A) Donning a formal nursing uniform is necessary when giving nursing care.
 - B) Wearing a nursing school pin is a required part of the nursing uniform.
 - C) Wearing a nametag is a required element of the uniform when giving nursing care.
 - D) The presence of a nurse in a uniform often makes a client uncomfortable
25. What was the impact of World War I on nursing?
- A) First emergency training of nurses
 - B) Isabel Hampton Robb wrote the nursing curriculum
 - C) The Navy School of Nursing was established
 - D) Hundreds of men were trained in this abbreviated program

16. C
17. D
18. B
19. B
20. A, B, D, E
21. A
22. A, B, C, E
23. A, B
24. C
25. A

1. What are some of the nursing programs a licensed practical nurse (LPN) can pursue to obtain a registered nurse (RN) license? Select all that apply.
 - A) One-to 2-year teaching program associated with a hospital school of nursing
 - B) Two-year program at a community or junior college
 - C) Three-year program affiliated with community and state college
 - D) Four-year program in a college or university
 - E) A college-based career ladder program

2. A nurse is interested in achieving licensure as a medical doctor. What is the **initial** requirement to acquire this licensure?
 - A) A minimum of 4 years of undergraduate study
 - B) An in-depth knowledge of the biomedical field
 - C) 10 years of work experience in a hospital setting
 - D) Demonstration of both an analytical mindset and caring attitude

3. A registered nurse (RN) has recently specialized in the field of surgery. As an RN in the surgical department, what is the specialized role the RN could pursue?
 - A) First assistant in surgery
 - B) Administering intravenous (IV) medications
 - C) Administering prescribed medications
 - D) Prescribing postoperative care

4. After obtaining licensure, in which kinds of client care is the LPN nursing student likely to be involved? Select all that apply.
 - A) Providing bedside care
 - B) Providing routine wound care
 - C) Administering prescribed oral medications
 - D) Reporting client reactions to prescribed medications
 - E) Caring for intravenous (IV) medication delivery systems

5. What is the purpose of the National Federation of Licensed Practical Nurses (NFLPN)? Select all that apply.
 - A) Providing standards for nursing care
 - B) Granting advanced certificates to LV/LPN
 - C) Promoting continued post-licensure education
 - D) Interpreting the role and function of an LV/LPN
 - E) Supporting federal and state legislation for the LV/LPN

6. What is the focus of the National Association for Practical Nurse Education and Service (NAPNES)? Select all that apply.
 - A) The role of the LV/LPN in healthcare delivery
 - B) Licensing the LV/LPN for client care practice
 - C) Encouraging LV/LPN service to the community
 - D) Preparing the LV/LPN student for healthcare practice
 - E) Advancing state and federal laws to support the practice of LV/LPNs

7. What is a mandatory licensure?
 - A) Practicing nursing without a license
 - B) One state automatically recognizes the licensure of another state
 - C) Previous education and experience is considered during the licensure process
 - D) Requires that nursing functions be performed only by those licensed in that state

8. What are the two types of licensure that can be pursued by the new nurse?
 - A) Permissive and certification
 - B) Certification and credentialing
 - C) Mandatory and certification
 - D) Permissive and mandatory

9. A nurse wants to know the importance of licensure. Which responses are accurate? Select all that apply.
 - A) Assures the nurse appropriate pay
 - B) Protects the public from unethical nurses
 - C) Assures a minimal level of nursing competency
 - D) Identifies a nurse as a qualified healthcare provider
 - E) Protects the public from unqualified nursing providers

10. A licensed LPN has recently moved to a new state and is seeking employment. What licensing regularly applies to this nurse's situation?
 - A) Mandatory licensure.
 - B) Endorsement
 - C) Permissive licensure
 - D) Reciprocity

11. What nurse's pledge do the LPNs recite at graduation?
 - A) Florence Nightingale Pledge
 - B) Practical Nurse's Pledge
 - C) Nurse Practice Act Pledge
 - D) National Federation of Licensed Practical Nurse's (NFLPN) Pledge

12. Why is it important for the nurse to be familiar with nursing theories? Select all that apply.
 - A) Nursing programs are based on nursing theories.
 - B) It is those theories that separate nursing from medicine
 - C) Nursing theories are the basis for nursing standards of care
 - D) Theories help to systematically develop decision-making skills.
 - E) Theories provide the purpose for nursing actions

13. What are the concepts of Florence Nightingale's nursing theory that are still in practice today?
 - A) Nature alone cures. Nursing assists the person to an improved condition for nature to take its course.
 - B) Mind and body are one. Nursing's role is to assist clients to perform functions they would perform unaided if they had the necessary strength, will, or knowledge.
 - C) Building on Maslow's Hierarchy of Needs, nursing assists clients to meet self-care needs necessary to maintain life, health, and well-being.
 - D) An individual's state of health/illness moves back and forth on a continuum.

14. Sister Callista Roy identified a nursing theory model in 1964 that is still in practice today. What are concepts of this nursing theory?
 - A) Humans deal with forces in both internal and external environments.
 - B) An individual's state of health/illness moves back and forth on a continuum.
 - C) Nursing assists clients to meet self-care needs necessary to maintain life, health, and well-being
 - D) Nursing's role is to assist clients to perform functions they would perform unaided if they had the necessary strength, will, or knowledge.

15. When verbalizing events with other healthcare team members, which role is the nurse performing?
 - A) Care provider
 - B) Advocate
 - C) Communicator
 - D) Teacher

16. What activity does a nurse perform when functioning in the care provider role?
 - A) Documents client care and client response
 - B) Helps clients understand their rights and responsibilities
 - C) Assists clients in preventing illness and injury before they occur
 - D) Helps clients achieve the maximum level of wellness

17. What activity does a nurse perform when functioning in the advocate role?
- A) Participates in shift report
 - B) Informs the RN that the client's pain medication is not effective
 - C) Helps the client select low-fat foods from the dinner and lunch menus
 - D) Helps an older client walk safely to the bathroom in order to prevent falls
18. What activity does a nurse perform when functioning in the teacher role?
- A) Documents medications the client received
 - B) Helps a client telephone their family member
 - C) Reinforces instructions for a client who is recovering from surgery
 - D) Provides wound care to a client with a healing wound on the left leg
19. An RN is explaining the importance of projecting a professional image to a group of LPN students. What should the RN's explanation include? Select all that apply.
- A) Representing one's place of employment
 - B) Ensuring the safety of the client
 - C) Protecting the rights of nurses
 - D) Dressing with style as a focus
 - E) Showing respect for others
20. A nurse wants to join a nursing organization. What services are usually offered by nursing organizations? Select all that apply.
- A) Scholarships
 - B) Free membership
 - C) Student membership
 - D) Newsletters of local interest
 - E) Continuing education opportunities
21. A student of nursing wishes to join the American Nurses Association (ANA) and requests information on the eligibility for the membership of the ANA. What information should the student be given?
- A) The person should be a registered nurse.
 - B) The association allows licensed practical nurses with 2 years' work experience.
 - C) The association allows student affiliates.
 - D) The association allows students with a scholarship.

22. What key program area is identified as crucial to nursing by the International Council for Nursing?
- A) Social economic welfare for nurses
 - B) Nursing needs in the educational setting
 - C) The continued development of nursing faculty
 - D) Encouraging leadership skills among nursing staff.
23. In which activities does the National League for Nursing (NLN) engage to support nursing? Select all that apply.
- A) Research in nursing education
 - B) Services to the nursing community
 - C) Public policy related to lifelong education
 - D) Socioeconomic welfare for nurses
 - E) Work needs of nursing staff
24. Which nursing organization represents nurses economically by assisting in collective bargaining situations?
- A) National League of Nursing (NLN)
 - B) National Association for Practical Nurse Education and Service (NAPNES)
 - C) American Nurses Association (ANA)
 - D) International Council of Nursing (ICN)
