

TEST BANK

Theoretical Basis for Nursing

Melanie McEwen, Evelyn M. Wills

6th Edition

Table of Contents

Unit I: Introduction to Theory

Chapter 1	Philosophy, Science, and Nursing
Chapter 2	Overview of Theory in Nursing
Chapter 3	Concept Development: Clarifying Meaning of Terms
Chapter 4	Theory Development: Structuring Conceptual Relationships in Nursing
Chapter 5	Theory Analysis and Evaluation

Unit II: Nursing Theories

Chapter 6	Overview of Grand Nursing Theories
Chapter 7	Grand Nursing Theories Based on Human Needs
Chapter 8	Grand Nursing Theories Based on Interactive Process
Chapter 9	Grand Nursing Theories Based on Unitary Process
Chapter 10	Introduction to Middle-Range Nursing Theories
Chapter 11	Overview of Selected Middle-Range Nursing Theories
Chapter 12	Evidence-Based Practice and Nursing Theory

Unit III: Shared Theories Used by Nurses

Chapter 13	Theories from the Sociologic Sciences
Chapter 14	Theories from the Behavioral Sciences
Chapter 15	Theories from the Biomedical Sciences
Chapter 16	Theories, Models, and Frameworks from Leadership and Management
Chapter 17	Learning Theories
Chapter 18	Ethical Theories and Principles

Unit IV: Application of Theory in Nursing

Chapter 19	Application of Theory in Nursing Practice
Chapter 20	Application of Theory in Nursing Research
Chapter 21	Application of Theory in Nursing Administration and Management
Chapter 22	Application of Theory in Nursing Education
Chapter 23	Future Issues in Nursing Theory

ANSWER KEY AT THE END OF EVERY CHAPTER

Chapter 01: Philosophy, Science, and Nursing

Multiple choice questions

1. Nursing has been considered both a profession and an occupation. Which of the following supports defining nursing as a profession?
 - A) **Autonomy**
 - B) Learned vocation
 - C) Varied level of skill
 - D) Career with varied knowledge
